

## RECOMMENDED SYSTEM REQUIREMENTS - POS

These are the recommended specifications for computer hardware to run Smart Hotel Software POS. Slower computers may work with Smart Hotel Software POS, but user experience may suffer.

Windows XP, Vista, Win 7 Home or Win 8 Home are NOT recommended for any computer that will be using Smart Hotel Software POS as part of a network.

Please contact us to discuss your computer setup if you are not sure or have your IT department contact us.

---

### STAND ALONE COMPUTER (NO NETWORK OR MULTIPLE COMPUTERS)

1.5+ GHz P4 Processor (minimum)  
4 GB RAM  
100GB Hard Disc  
More than 20% free space remaining on hard drives.  
20" Touch Screen monitor  
Windows Compatible USB Receipt printer and Cash Drawer  
Windows 10 Pro (Home versions not supported)  
MS-SQL Express 2012 or Better  
.Net Framework 4.5 or better

A 20" or 23" all-in-one unit works great.

**More RAM is required if other applications are on the computer – like PMS, Accounting, Call Accounting, email, spreadsheets, etc.**

---

### SERVER

2+ GHz Core 2 Processor (minimum)  
2-4 Users 8GB RAM  
5-8 Users 16GB RAM  
100 GB Hard Disc  
More than 20% free space remaining on hard drive.

Windows 10 Pro, Server 2008 or better

MS-SQL Express 2012 (1-5 users) Full MS-SQL for more than 5 users or Better

.Net Framework 4.5 or better

**More RAM is required if other applications are on the server – like PMS, Accounting, Call Accounting, email, spreadsheets, etc.**

---

#### POS WORKSTATIONS

1.5 GHz P4 Processor (minimum)

1+ GB RAM

1GB Hard Disc

20" Touch Screen monitor

Windows Compatible USB Receipt printer, Cash Drawer

Windows 10

.Net Framework 4.5

A 20" or 23" all-in-one unit works great.

---

#### POS WORKSTATION TABLETS

Windows Surface (or equivalent) will run the software native.

An Android or Apple tablet will run via Terminal Services.

8" or larger

Wireless Router connected to the network

---

#### BACK OFFICE (MANAGEMENT CONSOLE) WORKSTATIONS

2 GHz P4 Processor (minimum)

2+ GB RAM

10GB Hard Disc

Windows 10

.Net Framework 4.5

---

KITCHEN OR BAR PRINTER (NOT DIRECTLY ATTACHED TO A COMPUTER)

Windows Compatible Network Ready Receipt Printer – connects to a network cable.

**We Recommend:**

1 GB Routers or Switches  
Cat 5 or Cat 6 Cabling

Receipt Printer: Epson TM-T88 IV or TM-T88 V  
USB version for workstations  
Network Version for Kitchen

Cash Drawer: Vasario
